Understanding the Secret World of Parasites

Many doctors call it the “silent epidemic” affecting 8 out of 10 Americans. It’s unavoidable that this topic will cause disgust and queasiness in many of us, which is probable the result of the taboo imposed on the topics of such less-than-glamorous aspects of our lives. Dr. Hazel Parcells D.C., N.D., PHD., has said, “Make no mistake about it, parasites are the most toxic agents in the human body. They are one of the primary underlying causes of disease and are the most basic cause of a compromised immune system.” A parasite is an organism that lives off the host, the host being you or I. Humans can play “host” to over 100 different kinds of parasites, ranging from microscopic to several-feet-long tapeworms. Contrary to popular belief, parasites are not restricted to our colon alone, but can be found in other parts of the body: the lungs, the liver, in the muscles and joints, in the esophagus, the brain, the blood, the skin and even in the eyes! They feed off of living cells in the human body.

Chemtrails (Heavy METALS)

Are you feeling tired, sick? Got some unexplained rashes lately, it could be from what is now called Chemtrails, which are trails of smoky looking stuff coming out of big jet planes. This is a worldwide event. You are now breathing ethylene dibromide, nano-particulates of aluminum and barium and cationic polymer fibers with unidentified bioactive maximal. Our health is under attack, as evidenced by the skyrocketing rates of Chemtrails, which induced lung cancer, asthma, sinuses and pulmonary/respiratory problems. Welcome to the brave new world of toxic barium skies, weather control. Where is the HOPE!

Why Cleanse? Due to the inescapable exposure to unnatural pollutants, rushed lifestyles and lack of exercise the human body becomes weaker and overall life force becomes depleted. Cleansing propels the body to get back into the natural balance of optimal health and function. Cleansing is an experience of taking responsibility for your obligations to treat your body with the highest of gratitude and appreciation. Responsibility stands as a core principle of spirituality and begins with the nourishing of one's body.

NOTE: This is an extract of the full testimonial.

In 2001 I was diagnosed HIV positive... put on antibiotic... In 2006 I was diagnosed with AIDS, I was put on AIDS medication... since then I had stomach discomforts (vomiting, gas, acids, etc.) on a daily basis.... could not stop belching daily too.... the gas would last all day....

I was losing weight and had reached an all time low in my health and decided to stop taking the AIDS medication....

I was introduced to ProMatrix Whole-body Cleanse and decided to try since all else had failed me.....

I notice they were gentle on my stomach and I did not have to vomit the next day though I still have gas... Within 2 weeks I was able to eat all those gas-causing foods such as broccoli, peas, etc.... I sleep better and think more clearly... I now have a quality of life I did not have before..... I am back at work. AND I AM GAINING WEIGHT!!!

Note: David continued using ProMatrix Whole-body Cleanse and below is his latest report

I had my doctor's check-up and lab results came back and it is just amazing! My "viral load" (viral infection) was not detectable and my T-cells (white cells) count had increased from around 135 to more than 165!! I feel really good and never healthier and had not even had a cold last winter whereas my doctor thought I would not last the winter of 2008 due to potential viral infections, etc! I am very pleased and will continue to use the ProMatrix to help me to continue to recover my health, I especially use the entire ProMatrix Whole-body cleanse, I inhaled, I bathe, I ate organic foods and I am 70% raw food and if I can not get organic I spray ProMatrix on my foods which turns it into organic. The proof is in the pudding, my T-cells are still climbing. **David**

Another update from David

Again my blood test results were good. My viral load is still undetectable and my T-cells are still 165....

I must add that after taking ProMatrix probiotics for over 5 months I noticed that the thrush (Candida albicans) I always had under my tongue was gone. Candida is normal for people who are HIV/AIDS...

I also noticed that the mucous that I constantly had in my lungs is clearing up. My lungs feel cleaner and I noticed my breathing is better. And better yet in two months I will start training for mountain climbing. **David**
